1. Log in to the "Proscenic Home" app.....	2
2. Add the Proscenic 850T.....	2
Part 2. How to control the Proscenic 850T in "Proscenic Home" (IOS).....	7
Part 3. How to connect the Proscenic 850T to WLAN in the (Android).....	8
1. Log in to the "Proscenic Home" app.....	8
2. Add the Proscenic 850T.....	8
Part 4. How to control the Proscenic 850T in "Proscenic Home" (Android).....	13

## Part 1. How to connect the Proscenic 850T to WLAN (IOS)

1. Log in to the "Proscenic Home" app

- ✚ Download "Proscenic Home" from the App Store
- ✚ Register with your email address for a "Proscenic Home" account. Select " United States of America +1". (skip this step if you already have a "Proscenic Home" account)
- ✚ Enter your username and password. Log in to your "Proscenic Home" account.

2. Add the Proscenic 850T

**Remarks: Make sure that your iPhone/iPad is already connected to 2.4GHz WLAN**

2.1 Click the "Add device" option to add a device

2.2 Select 850T from the category "Smart cleaning".

2.3 Select 850T / 850P (2.4G) of the two option.

Appearance choice

850T/850P(2.4G)

850T/850P(2.4G+5G)

## 2.4 Check the status of the machine

- ✚ To switch on the 850T, please press the red “ON” button at the bottom of the machine.
- ✚ Please hold the center button for five seconds until the WIFI indicator flashes.

### Check the status of the machine 1/5

1. Please check whether the robot is turned on and the indicator light is on
2. When the machine is not turned on, press the red “ON” button at the bottom of the machine to start it, you can hear a sound if it boots successfully.

Make sure the device is turned on

next step

### Add a device 2/5

1. Press “⏻” and hold for 5 seconds
2. Wi-Fi indicator flashes

Please make sure the wifi light is flashing

next step

 Select your 2.4G WLAN (e.g. Fiona) and enter your WLAN password. Click on the "Next Step" option.

Add your Wi-Fi network

3/5

Choose a network to connect to your device  
(Only supports 2.4G WIFI)

Fiona

Please input your WiFi pass... 

#### Distribution network instructions

1. Please make sure that the WIFI password is entered correctly;
2. Please confirm whether the WIFI is 2.4G; If the home router is a dual-band router, please set the SSID name of 2.4G and 5G separately;
3. Please close the 4G traffic when binding. And after binding successfully, open the 4G traffic again;
4. Please check if the router has MAC address filtering set, or if the number of assigned IP addresses is full;
5. Try to avoid network rush hours (18:00 to 23:00) for the first time binding;
6. Please contact customer service if it is still not bound successfully;

**Note:** After the iPhone is upgraded to iOS13, the Wi-Fi name still cannot be obtained according to the guidance. You need to restart the iPhone or upgrade the iPhone system to the latest system;

next step

- Click on the "Go and connect" option. In the WIFI settings page, switch the 2.4G WLAN you are using (e.g. Fiona) to Proscenic-850T-xxxxxxx. After that, return to "Proscenic Home".

Trying to connect with the dev... 4/5

Current WIFI: Fiona

1. Turn on the phone "Settings-WLAN"
2. Connect to WIFI Proscenic-XXX
3. Return to ProscenicHome after successful connection

Go and connect

- Please wait until the connection process reaches 100%. Click on the "Completed" option. Then you can control the Proscenic 850T in "Proscenic Home".
